

Executive brief

Enable frictionless hybrid meetings

Unisys Managed Meeting Rooms

Key capabilities

Optimize your existing meeting rooms with data-driven insights and recommendations

Prevent meeting delays and technical failures with proactive workspace troubleshooting

Enhance hybrid meeting experiences for on-site and remote workers with advanced audiovisual equipment

Prevent time lost due to technical confusion with end-to-end meeting room deployment and support

Hybrid meetings are vital to companies with global or dispersed workforces. By breaking down communication barriers and facilitating instant connection, hybrid meetings allow teams to deliver results faster than ever. However, even with the pervasive use of conferencing platforms, technical issues can frustrate end users and IT admins alike.

Whether grappling with meeting room equipment failures, audio-video outages or cumbersome scheduling technology, hybrid meetings can chip away at valuable collaboration time and leave employees feeling discouraged.

With the Unisys Managed Meeting Rooms solution, enterprises can easily overcome these challenges. This end-to-end managed service for Microsoft Teams Rooms can position your team to achieve faster results and drive business outcomes that impact your bottom line.

Streamline your meeting scheduling experience

Leverage your digital workplace resources to the fullest and empower employees with an intuitive scheduling interface and proactive meeting room system monitoring.

Why upgrade your hybrid meeting experience?

With Unisys Managed Meeting Rooms, you can empower your meeting outcomes and employee productivity. This personalized offering optimizes your hybrid meeting experiences and office resources with an assessment and design workshop, hardware procurement, installation, configuration, training and ongoing support.

How you can benefit:

- **Consulting assessment:** Calculate the ROI your organization can achieve with a thorough analysis of your current meeting room infrastructure. Learn how to address your meeting room needs with detailed room designs and solution plans.
- **Custom persona workshop:** Design your meeting rooms to fulfill their ideal uses, whether as small spaces dedicated to focus sessions with extra collaboration hardware or as innovation rooms equipped with video walls and interactive displays.
- **Smooth and timely rollout:** Ensure successful end-user training and adoption of meeting room technology with the help of experienced digital workplace consultants and organizational change management experts.
- **Real-time actionable insights:** Maximize office resources and identify cost-saving opportunities by leveraging workspace usage analytics, such as meeting duration, no-shows and room utilization.

- **AI-driven audio-video:** Help remote attendees feel like they are in the meeting room with advanced audio-video equipment and capabilities. AI-powered features, like automatic framing, capture every participant while active speaker tracking automatically follows the person speaking to help those attending remotely feel like they are in the room alongside in-person attendees.
- **24/7 operational support:** Benefit from proactive global management and support for your meeting rooms and workspaces by Unisys' experience management team.

Why Unisys?

With certified personnel managing thousands of meeting rooms for organizations worldwide, Unisys has the global resources and talent to help you streamline your digital workplace. Experience tailored assessments, deployments and support to help you facilitate meeting productivity, maximize room usage and enhance the employee experience.
