Defined Benefit Pension Plans

Estimated Future Defined Benefit Pension Plans Cash Contributions

The funding estimates for our U.S. qualified defined benefit pension plan are based on current estimated asset returns and the funding discount rates used for the U.S. qualified defined benefit plan which have been updated to reflect the year end 2015 discount rates. The future funding requirements are likely to change based on, among other items, market conditions and changes in discount rates.

Current estimates for future contributions to international plans are based on local funding regulations and agreements and are likely to change in 2016 and beyond based on a number of factors including market conditions, changes in discount rates and changes in currency rates.

Questions & Answers

Non-GAAP Financial Measures

In an effort to provide investors with additional information regarding the company's results as determined by generally accepted accounting principles (GAAP), the company also discusses, in its earnings press release and/or earnings presentation materials, the following non-GAAP information which management believes provides useful information to investors.

Non-GAAP Operating Profit – Unisys recorded pretax pension expense during the fourth quarters of 2015 and 2014. During the fourth quarter of 2015, Unisys recorded a pretax charge in connection with cost reduction actions and other expense. Unisys recorded pretax pension expense during 2015 and 2014. During 2015, Unisys recorded a pretax charge in connection with cost reduction actions and other expense. In order to provide investors with additional understanding of the company's operating results, these charges are excluded from the operating profit.

Non-GAAP Diluted Earnings Per Share – Unisys recorded pension expense, net of tax, during the fourth quarters of 2015 and 2014. During the fourth quarter of 2015, Unisys recorded a charge, net of tax in connection with cost reduction actions and other expense. Unisys recorded pension expense, net of tax, during 2015 and 2014. During 2015, Unisys recorded a charge, in connection with cost reduction actions and other expense. In an effort to provide investors with a perspective on the company's earnings without these charges, they are excluded from the non-GAAP diluted earnings per share calculations.

Constant Currency – The company refers to growth rates in constant currency or on a constant currency basis so that the business results can be viewed without the impact of fluctuations in foreign currency exchange rates to facilitate comparisons of the company's business performance from one period to another. Constant currency is calculated by retranslating current and prior period results at a consistent rate.

Non-GAAP Financial Measures

Free Cash Flow – To better understand the trends in our business, we believe that it is helpful to present free cash flow, which we define as cash flow from operations less capital expenditures. Management believes this measure gives investors an additional perspective on cash flow from operating activities in excess of amounts required for reinvestment.

Adjusted Free Cash Flow - Adjusted free cash flow provides free cash flow before the company's pension contributions or cost reduction payments in an effort to provide investors with a perspective on the company's free cash flow generation before these items.

EBITDA – Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) is an approximate measure of a company's operating cash flow based on data from the company's income statement. EBITDA is calculated as earnings before the deduction of net income attributable to noncontrolling interests, other (income) expense, net, interest expense, taxes, depreciation and amortization, and non-cash share-based compensation expense. Management believes this measure may be relevant to investors due to the level of fixed assets and related depreciation charges. This measure is also of interest to the company's creditors, since it provides a perspective on earnings available for interest payments.

Adjusted EBITDA – Unisys recorded pretax pension expense during the fourth quarters of 2015 and 2014. During the fourth quarter of 2015, Unisys recorded a pretax charge in connection with cost reduction actions and other expense. Unisys recorded pretax pension expense during 2015 and 2014. During 2015, Unisys recorded a pretax charge in connection with cost reduction actions and other expense. In order to provide investors with additional understanding of the company's operating results, these charges are excluded from the Adjusted EBITDA calculation.
